PUMPS

Cobra 3" x 3"
Self Priming Centrifugal Pump

PUMP SPECIFICATIONS

Size:	3" x 3" (76 mm x 76 mm) Flange
Casing:	Aluminium LM25TF
Max Operating Pressure:	12 bar
Impeller Type:	Five vane Aluminium LM24TF
Max Solids :	11 mm diameter
Drive:	Hydraulic /Electric Motor
Shaft Sleeve:	316 Stainless Steel
Replaceable Wear Rings:	High performance Thermoplastic bearing grade
Relief Valve:	Optional (Spring/Pneumatic)
'O' Rings:	Nitrile, (other material available on request)
Hardware:	A2 Stainless Steel Fittings
Optional Equipment:	Victaulic flanges DIN, ANSI etc.
Seal Detail:	Mechanical Carbon/Ceramic/Nitrile (Ni-resist optional) Stainless Steel spring

Consult factory for applications exceeding maximum pressure and/or temperature indicated.
